# Code-o-Fiesta 3.0

*22nd March 2023*

On 22nd March 2023 IEEE IGDTUW in collaboration with Newton School and WIE Delhi section organized an online coding competition 'Code-o-fiesta 3.0'. The session saw 100+ registrations from coding enthusiasts.

Participants were required to solve complex problems under time pressure, which helped them improve their coding skills and learn new techniques. The competition provided a platform for students to demonstrate their programming abilities, creativity, and problem-solving skills. Whether an experienced developer or a fresher, Code-o-fiesta pushed them to their limits and provided a great opportunity to learn from peers and gain feedback.
Apart from improved technical skills, coders were able to build their networks and advance their careers while having fun and taking on new challenges.

The competition judged participants on the accuracy and efficiency of their solutions, as well as on the quality of their code and their ability to solve the challenges within the given time frame. Based on this, various exciting goodies were offered to top performers. Prize money of Rs. 1500 was also offered to the winners. Also, Newton School offered internship opportunities to winners.
